

December 2015 Newsletter

Slingshots Friends,

What a fantastic year we have had helping teens in the city of Chicago. We are so thankful for many volunteers that have come to help after school and for the donations both monetary and specific items.

This year at Slingshots hundreds of teens have come after school to take part in vocational training, club nights, student leadership training and Bible studies. We are working hard to help teens in Chicago to take their education serious, contribute to the community that they live in and also consider what God says in His Word.

As you know it takes a village to raise teens as they try to navigate the challenging years. Volunteers from the community, local churches and colleges have come to invest in the lives of teens. This year we had a number of mission trip teams come. Groups came from Pittsburg, Philadelphia, South Carolina, locally and southern Illinois.
